

Water Mains Break !

So do

Storm & Sewer Mains !!!

And quite commonly they are not that far apart!

Freezing

Winter Frost Heaving

Construction

Any number of reasons!

That's why Our Governments—Health Boards Add Chlorine to our water

BUT WE DON'T HAVE TO DRINK IT!

It's a known fact, Chlorine's use as a water disinfectant can create
Carcinogenic byproducts in our drinking water!

Chlorine

The Necessary Evil
